

- Class: **Dimensions.java**
- Code smell: **Data class**
- Reason: class contains **only “getters”**, this is not a very necessary class
- Suggestion: **add method** for image **size calculation** or method to **restrict** some **unconventional format**

- Class and method: **ContactAdapter.java getView()**
- Code smell: **Speculative Generality**
- Reason: **not needed/called** implementation
- Suggestion: **remove** the code
